

Chidera Godswill Eric

FULL-STACK ENGINEER · LARAVEL & NEXT.JS · SAAS FOUNDER

chideraaniude@gmail.com · +234 814 975 6258 · Enugu, Nigeria · LinkedIn · github.com/DevCrd · devcrd.xyz

PROFILE

Full-stack engineer with 5+ years of production experience building and scaling web applications used by schools, students, and businesses across Nigeria. Founder of Vercura Systems — the company behind Academy Pro (a multi-tenant SaaS serving 2,000+ students) and Flatmates.space. Led engineering at Educare Technology Solutions, where I built the public website, blog system, and 20+ custom student report templates. Comfortable taking a feature from idea to deployed infrastructure — VPS provisioning, real-time systems, multi-tenant architecture, and CI/CD pipelines. Open to remote full-stack or backend-focused roles on a contract or full-time basis.

SKILLS

Backend	PHP (Laravel 11/12), Node.js, REST APIs, WebSockets (Laravel Reverb), multi-tenancy architecture
Frontend	Next.js 14, React, TypeScript, Inertia.js, Livewire, Angular, HTML5, SCSS/CSS
Databases	MySQL 8, PostgreSQL, Redis, query optimisation, per-tenant DB isolation
DevOps	Ubuntu/Linux, Caddy, Nginx, PM2, Docker (familiar), GitHub Actions, CI/CD, Cloudflare DNS
Cloud	Hetzner VPS, AWS (EC2/S3), Vercel, DigitalOcean, MinIO (S3-compatible)
Payments	Paystack, Remita · Stripe / Paddle (familiar)
Tools	Git, VS Code, PhpStorm, ClickUp, Postman, Figma

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Jan 2023 – Present

Educare Technology Solutions Limited · Enugu, Nigeria (Remote)

- › Built the public-facing **educare.school** website end-to-end — hero section with animated product module display, privacy/cookie consent banner, and Drift live chat integration.
- › Built the blog system end-to-end — listing page with category filters (Schools, Businesses, News & Events), featured post layout, author profiles, and individual article pages.
- › Designed and implemented **20+ custom student assessment report templates** (EYFS, Junior, Senior, SEN, Transcripts, Report Analysis) — school-branded, term-specific result sheets generated per student across multiple institutions.
- › Maintained and extended the reports infrastructure as new school assessment formats and requirements were onboarded.
- › Contributed to Educare's multi-module school ERP covering CBT, eClassroom, Finance, HR, Pastoral, Library, and Admissions — serving thousands of students across Nigerian schools.

Junior Web Developer

Jul 2020 – Dec 2022

Educare Technology Solutions Limited · Lagos, Nigeria (On-site)

- › Promoted from intern to developer within 12 months based on demonstrated initiative and technical growth.
- › Resolved 500+ technical support issues for schools, parents, and teachers — first-contact resolution rate that reduced escalations to senior engineers.
- › Migrated 3 client websites from custom code to WordPress with Advanced Custom Fields, enabling non-technical staff to manage content independently.
- › Developed reusable school-dashboard result templates adopted across 10+ partner institutions.

PROJECTS & VENTURES

Academy Pro academypro.institute

2024 – Present

Multi-tenant SaaS · Laravel 12 · Next.js · MySQL · Redis · Hetzner VPS · Cloudflare

- › Designed and built a multi-tenant educational platform for Nigerian schools — full per-tenant database isolation, wildcard subdomain routing, and single-server multi-academy architecture.
- › Migrated from Vercel/Railway to a self-hosted Hetzner CX22 instance under budget pressure — restored full service within hours.
- › Scaled to serve **2,000+ active students** within two weeks of the first tenant academy going live — EnuguWest JAMB Academy (enuguwest.academy), also accessible at enuguwest.academypro.institute.

> Implemented per-academy encrypted SMTP credentials via Brevo, Laravel Reverb for real-time events, and a queued media pipeline with Cloudinary for asset storage and delivery.

Flatmates.space flatmates.space 2024 – Present

Roommate & rental matching platform · Laravel · Next.js · Nigeria market

- > Built and launched a property and roommate matching platform targeting the Nigerian rental market.
- > End-to-end ownership: product design, backend API, frontend, deployment, and ongoing maintenance.

Bastion 2024 – Present

Election Intelligence Platform · Next.js · Real-time Systems · Data Intelligence

- > Built a real-time electoral data and civic engagement platform — live result tracking, constituency intelligence, and public-facing civic tools.
- > End-to-end ownership under Vercura Systems: architecture, development, and deployment.

Eden 2024 – Present

Christian social & connections platform · Node.js · Fullstack · System Architecture

- > Designed and building a faith-based social platform for meaningful connections — custom matching logic, secure messaging, and moderated community features.
- > Full-stack ownership: product design, backend architecture, frontend, and infrastructure.

EnuguWest JAMB Academy enuguwest.academy Dec 2024 – Apr 2025

CBT/CBE exam platform powered by Academy Pro · SPA · 3-person team

- > Single-handedly delivered the marketing SPA in one week; then led a 3-person team to build the full CBT platform in 3 months.
- > Platform handled **1,000+ simultaneous exam-takers** at launch with no degradation.

Mathematics Olympiad Platform — Henrietta Nwabuisi Nnadi Foundation 2024

Laravel · MySQL · (migrated from Firebase/Firestore) · Pro bono · Ngwo, Enugu

- > Built a complete online Olympiad system: student registration, timed exam engine, auto-marking, leaderboard, and admin panel with question editor and CSV export.
- > Migrated the platform from a Firebase/Firestore backend to a full Laravel + MySQL stack. Volunteered to the Ngwo community in support of the foundation's education efforts.

Senator Osita Ngwu — Legislative Portal 2024

Next.js · Headless CMS · Government Technology · Enugu, Nigeria

- > Built a constituency engagement portal — legislative scorecard, scholarship application system, project portfolio tracker, and public communication hub.
- > Delivered end-to-end: design, development, CMS integration, and deployment. Described as a legislative portal that "set a new standard" for government digital presence in Nigeria.

EDUCATION

BSc Computer Science · University of Nigeria, Nsukka

In Progress

2025 – Present

Self-taught Full-Stack Developer

5+ years hands-on experience across production systems, infrastructure, and product development — from intern to lead engineer.
